

Wastewater Utility Green Power Report

February 2014

Electricity Generated this month: **43,846 kWh (kilowatt hours)**

This amount of electricity would have cost **\$3,946.13** if it had been purchased from Duke Energy.

4,230 gallons of grease were processed in our digesters for the month.

14 tons of food scraps were processed this month.

12% of our plant's power was generated on-site this month.

The City of West Lafayette's Wastewater Utility has pledged to generate at least 10% of its electricity on-site in 2014 as Indiana's first wastewater plant to become an EPA Green Power Partner.
